

## **Mirostaw J. Skibniewski, Ph.D.**

A graduate of the Warsaw University of Technology (Poland) and Carnegie-Mellon University (Pittsburgh, Pennsylvania, USA), Prof. Skibniewski is the holder of A. James Clark Endowed Chair in Construction Engineering and Project Management at the University of Maryland (College Park), USA. He has previously worked as a professor, Assoc. Provost and Interim Dean at Purdue University (West Lafayette, Indiana, USA), and as the Dean of the College of Engineering at Khalifa University (Abu Dhabi, UAE). A past winner of the U.S. National Science Foundation's Presidential Young Investigator Award and the Walter L. Huber Research Prize from the American Society of Civil Engineers, he is an elected foreign member of the Russian Academy of Engineering and a recipient of an honorary doctorate from Vilnius Gediminas Technical University in Lithuania. An author or coauthor of over 200 technical publications, he focuses his current research on automation and information technology issues related to construction project engineering and management. Prof. Skibniewski serves as Editor-in-Chief of *Automation in Construction*, an international research journal published by Elsevier, and as North American Editor of the *Journal of Civil Engineering and Management* published by Taylor & Francis.
